

- 1) BGP LS
- 2) PCC
- 3) PCE
- 4) PCEP

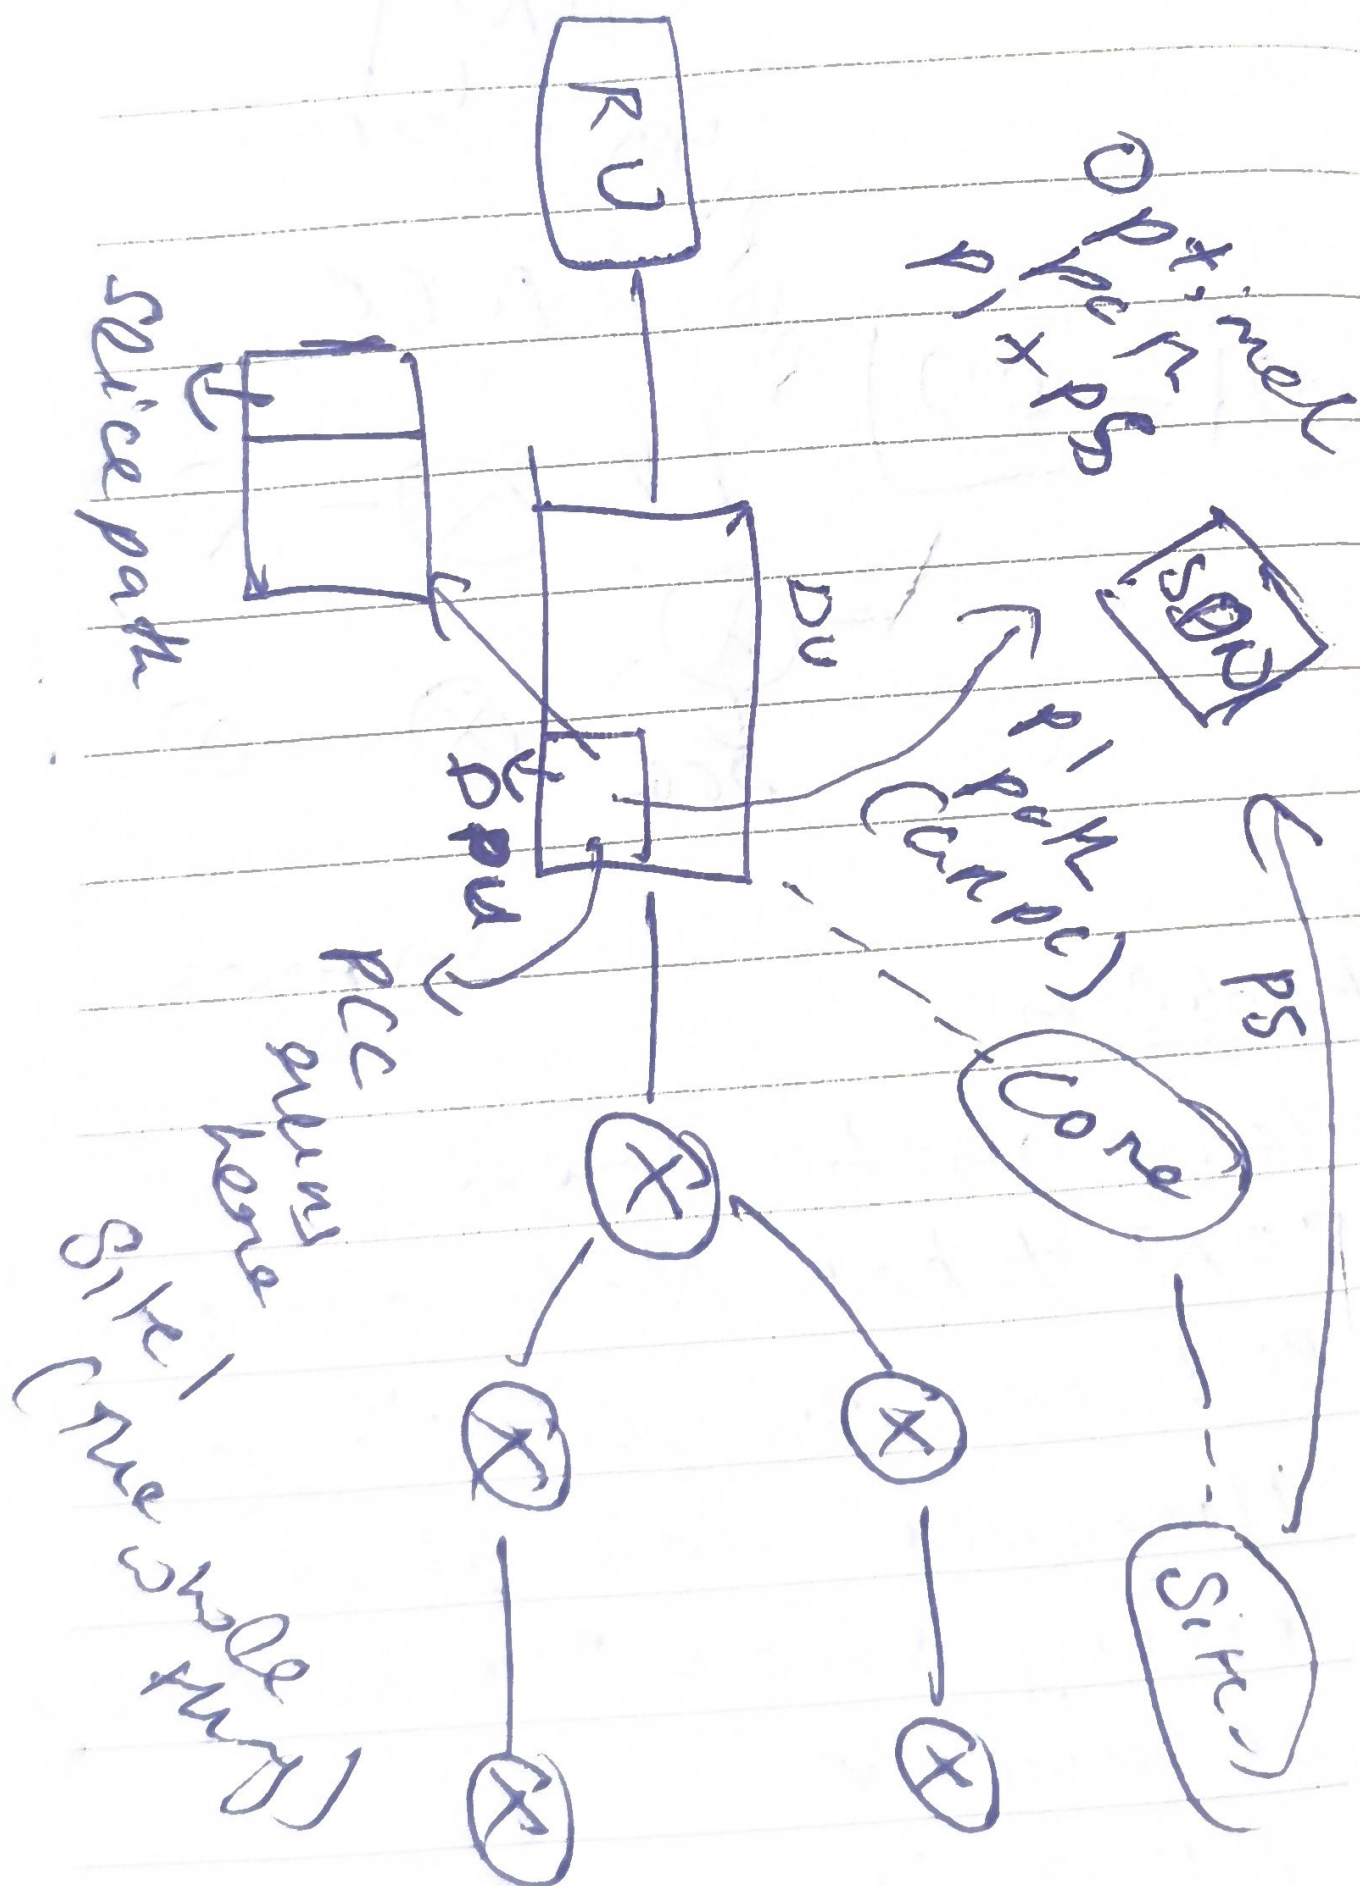

Problem

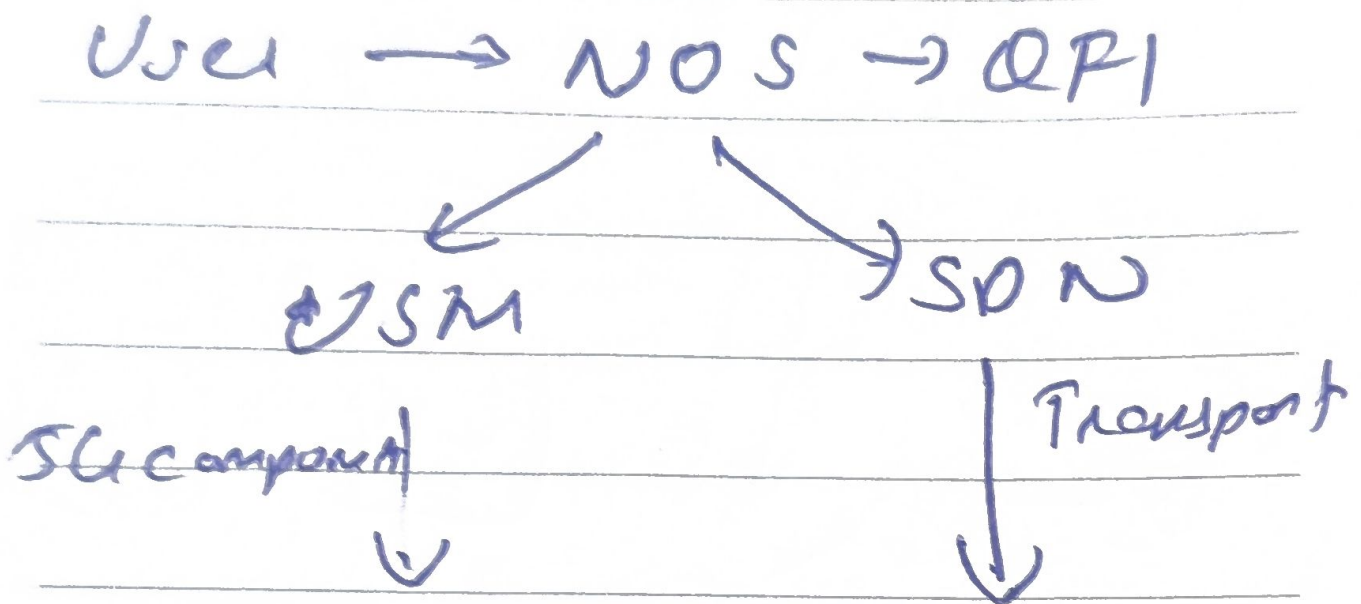

Many such area
 SDN takes data and use
 PCE to compute the path
 However lots of area
 sending BGP LS data every
 second. ❌

SK → Segment Routing

Path ← BGP
 State
 Link ← IGP → OSPF
 State
 ISIS
 ↓
 Area

PCC calculation will be
in the ~~the~~ DPU

Need proper AI involvement
